01

Overview

Advancing Oral & Maxillofacial Health Through Education, Innovation & Collaboration

We're a global platform dedicated to empowering healthcare providers and the public through trusted, expert-driven knowledge in oral pathology, medicine, radiology, and surgery.

Founded by Dr. Mandana Donoghue, Oral Pathology 360 reaches specialists, educators, and institutions in over 35 countries. We offer high-impact education, global visibility, and a trusted space for meaningful engagement.

02

What We Offer

Sponsored Educational Content

Live or recorded sessions highlighting innovations, tools, and best practices — integrated into our educational calendar.

Brand & Product Features

Showcase relevant products or technologies through expert reviews, livestreams, case discussions, or demo videos.

Expert Participation & Guest Speaking

Join us as a guest lecturer or panelist in one of our global livestreams or special feature events.

Institutional Partnerships

Collaborate with us on pre-conference courses, faculty development, and academic engagement campaigns.

Public Awareness Campaigns (via Oral Health 360)

Promote community education and early detection efforts through co-branded content and outreach.

Why Partner With Us?

- Trusted audience of healthcare professionals
- Global reach with deep niche focus
- High engagement through live & on-demand formats
- Mission-aligned: credible, ethical, education-first
- Opportunities tailored to your goals — awareness, education, or thought leadership
